07/2021

Dear Parents/Caregivers,

The first term ends this Friday. Classes will finish at 3.00pm, as is normal.

As we have found in recent times, each term has had some disruption while the Covid-19 pandemic continues to be felt. In Term One, we experienced two fairly brief Level Three Lockdowns. While these are not what anyone would want, we have all learned to find ways to make them work as well as possible.

From our end, we have continued to develop our processes for learning during lockdown; while we are not looking for these situations, we recognise that they continue to be a possibility. As a result, we are continuing to develop the necessary systems to maximise the value of these times.

Thank you to all our families for your support in Term One. We look forward to continuing next term.

HEADS UP FOR 'THON '21'

Everglade School has a very positive record of running a '-Thon' event each year. They are a fun way to raise funds for school improvements, and provide opportunities for pupils and families to gain some new and interesting learning.

This year we return to holding a 'Thon' event, after taking a break last year due to Covid. We have called the event **'Thon '21'** (for pretty obvious reasons) and this material will come home in the first week of next term.

Here's a different offer to consider

Grade A Electrical Ltd has recently launched a Give Back scheme offered to all schools and childcare centers throughout the wider Auckland Region.

How the Give Back Scheme works.

Every heat pump serviced by Grade A Electrical Ltd where the referral lead was secured through the means of the school, whether it be a family member, friend, parent, staff member there are no limitations as long as the condition of the school referral system has been met, Grade A Electrical Ltd will donate \$10.00 to the school.

This is a newly established program that has benefited many of the schools since implementation. Some of the successful strategies include featuring the current promotion in the school newsletter and on their social media sites. The latest success story comes from an Auckland based school that received 62 referrals from both parents, and staff within one week since running. The school claimed \$620.00 in return as a result.

Our current promotion for a Full Heat Pump Service is \$99.00 (GST Inclusive)

The benefits of having your heat pumps cleaned and services:

1. Longer Life Cycle - reduces the chances of a breakdown
2. Enhancing Efficiency and reducing power costs
3. Health benefits – filters keep doing their job of removing bacteria and odors
4. Improves comfort

Does the unit require a service if the filters have been cleaned?

It is important to know that cleaning and servicing are quite different. Filter cleaning is basic routine maintenance. However, servicing also tends to the mechanical operation as well as deep cleaning of the core of both the indoor and outdoor units.

Performance Checklist comprises of:

1. Check operating temperature
2. Remove fine dust from behind the filter screen
3. Remove oils and stain build up from inside radiator
4. Sanitize inside radiator
5. Internal drain is flushed
6. Fan blades cleaned
7. Reassemble, test and check noise levels
8. Clean condensers
9. Check for any refrigerant leaks
10. Clean intake screens
11. Apply cleaning solutions to fins and coil
12. Clean and check fan blades

We appreciate the opportunity and hope that we can provide you with the confidence in our high standard services whilst meeting a mutual beneficial arrangement.

So if you have a Heat Pump, and you would like it to be serviced, please contact Grade A Electrical on 027 592 7380 and mention Everglade School.

Autumn Description

In the autumn season, leaves are falling from the tree. They are very old and dry. It's very crunchy too. They are colours orange, yellow, red and brown. It's so cold when you go outside, you need to wear warm clothes. The leaves are light. The trees are dead because all the leaves have fallen.
